4 Way Cross

Q CLAMP REF No.	A	B	C	D	E	F	G	HOLE DIA mm	WEIGHT kgs
158-1	1		81	32					0.52
158-2	2		92	37					0.60
158-3	3		120	40					1.06
158-4	4		136	53					1.46

A 4 way cross that enables the vertical to pass through the centre of the fitting with the four horizontal tubes joining at 90° to each other. Ideal for structures with multiple verticals. The vertical must remain either continuous with the cross rails being cut.
